and Freight Business.

Chicago, Jan. 9.—The Western rail-ways issued orders to-day for a general resumption of solicitation of passenger and freight business. Executives of the roads explained that their lines are now in a position to han-dle more business, that the Government does not yet own the roads, that there is no pooling and therefore no reason why each board should not go ahead and obtain as much business as pos-

LANSING WILL AID MRS. WHITEHOUSE

Denies Protesting Plan to Send Her to Berne. WASHINGTON, Jan. 9 .- Secretary

Lansing to-day denied indignantly and

emphatically a report published in New

York that he had protested against the action of George Creel, chairman of the Committee on Public Information, in sending Mrs. Norman DeR. Whitehouse to Switzerland to spread accurate information concerning America's war aims. Not only has the mission of Mrs. Whitehouse the sympathetic support of Mr. Lansing but she has been assisted in every way by the State Department. Her mission, however, is not of a character which will give her any official status with the State Department. She goes to Switzerland as a representative of the Committee on Public Information and will seek to establish what might be termed a branch office of the Creel bureau at Berne. She will have assist-ants, and it is understood that \$15,000

has been allotted to defray expenses of the work.

There is nothing irregular, it is explained, in the mission to be undertaken by Mrs. Whitehouse. There are agents of Germany and France and Great Britain in Berne as well as in other neutral cities, and they work openly.

## A Great Labor Crisis

Not in the attitude of labor toward the war, not in the spirit with which labor is helping the war, but purely and simply in

the supply of labor. The productive capacity of America is called upon now as never before. Skilled workmen can't be evolved over night and unskilled men are hard to find. The draft armies have taken many of both classes and will take many more. This has created a shortage of unparalleled seriousness.

Our allies are depending on us for quantity production to win. The wheels must be kept turning. The necessary labor must and will be found.

## IN NEXT SUNDAY'S SUN

the labor crisis is treated in the interesting and important manner it deserves. There are some astounding facts in it for you to digest, Mr. Citizen. They will wake you up to what this war is if you aren't already
